For your 6 points I gave you, you must quietly copy each Question you missed once today and once again this weekend for homework. If you need access to the test at [www.chemsnippets.com](http://www.chemsnippets.com) & find the link for your test.

For retest authorization, you must link each question to 3 specific Instances of what I did in my lesson to teach it. If it was a starter, write the starter, if it was notes give the date of the notes, if it was a lab give the name of the lab. If it was a homework question, write the question out.
